MY DEAR LADIES

Happy International Women's Month!

March 8th is International Women's Day and the theme this year is to #Accelerate Action. The idea is to swiftly reduce the steps to achieving gender equality and reduce both systemic barriers and bases that we face in both our personal and professional lives.

So, considering IWM, what steps are we taking to accelerate action? Which female mentors in our lives do we see embodying this theme? How many stay true to their goals? How are they creating value or impact in their spheres of influence?

March is also a month of divinity and spirituality as we celebrate both Ramadhan and Lent in the same month.
